About Orange City Elevators

Download Company Profile

Orange City Elevators (OCE) was founded with a mission to deliver safe, reliable, and technologically advanced elevator solutions at economical and affordable prices. Our product range includes both passenger and freight elevators, manual and automatic, designed to meet the diverse requirements of residential, commercial, and industrial projects.

We offer elevators with varying speeds, capacities, aesthetics, door systems, and control options, ensuring a complete product mix to suit every project and customer need. Whether standard or customized, our solutions prioritize quality, precision, and efficiency, supported by prompt and dependable after-sales service.

Established by a team of three visionary partners, OCE combines experience, innovation, and customer-centric values. Our focus remains on providing high-performance elevators with exceptional safety and durability, while maintaining cost-effective and tailored solutions for our clients.

Committed to redefining vertical transportation, Orange City Elevators continues to evolve with the latest technology, striving for excellence in every installation and ensuring total customer satisfaction.

Meet Our Founders

Leadership driven by engineering excellence, operational discipline, and client trust.

Mohsin Khan

ENGINEERING HEAD

Mohsin Khan is the co-founder and engineering head of Orange City Elevators with **10+ years of hands-on execution experience** and **500+ successful elevator installations** across residential, commercial, hospital, and industrial projects.

> ***"Engineering precision defines safety, performance, and long-term trust."***

- Shaft engineering & complex site solutions
- Drawings, load calculations & validation
- Installation quality control & optimization
- Project execution & workflow design

Abdul Haseeb

SALES, CLIENT RELATIONS & STRATEGY

Abdul Haseeb co-founder leads sales, business development, and client communication at Orange City Elevators. He plays a key role in strategic growth, market expansion, and long-term relationship building with developers, architects, and consultants.

> ***"Trust is built through transparency, clarity, and consistent delivery."***

- High-value client consultation & requirement analysis
- Builder, architect & consultant engagement
- Proposal structuring & technical-commercial coordination
- Market expansion & strategic partnerships
- Relationship management & customer retention

Tabrez Sheikh

OPERATIONS & EXECUTION PARTNER

Tabrez Sheikh co-founder oversees execution, operations, and financial coordination at Orange City Elevators. He ensures projects run smoothly from planning to handover, maintaining strict control over timelines, material flow, and internal processes.

> ***"Operational discipline is the backbone of on-time and reliable delivery."***

- Vendor coordination & material planning
- Installation scheduling & execution tracking
- Internal operations & workflow control
- Financial documentation & cost management
- Payment coordination & project discipline

Meet Our Team

Skilled professionals ensuring safety, precision, and reliability at every stage.

The People Behind Every Lift

Behind every safe and smooth elevator journey is a team of dedicated professionals. Our technicians, engineers, and service staff work tirelessly on-site, ensuring reliability, safety, and precision in every project we deliver.

From installation to maintenance, our workforce is trained, certified, and driven by a shared commitment to excellence.

- Certified installation & service technicians
- On-site safety & quality supervisors
- 24/7 emergency response teams
- Continuous training & skill upgrades

"Our strength lies in our people — skilled hands, disciplined minds, and honest work."

Elevating Comfort & Safety

Orange City Elevators is a trusted name in lift manufacturing, installation, modernization, and maintenance services. We deliver safe, reliable, and modern vertical mobility solutions.

Delivering Safety • Precision • Reliability

Orange City Elevators (OCE) is Central India's fastest-growing and most trusted elevator company, delivering world-class lift engineering, installation, modernization, and maintenance solutions across residential, commercial, hospital, industrial, and premium real-estate projects.

Why Clients Trust OCE

- 500+ lifts delivered on time across Central India
- Make-in-India engineering following IS standards
- Experts in complex & non-standard shaft solutions
- Low-cost IoT-based monitoring for uptime tracking

Our Commitment

- Uptime promise with strong service response
- Transparent communication & ethical culture
- Every customer matters, not just order value
- Long-term performance & lifecycle support

Product Range & Solutions

Passenger Elevators
MR / MRL | Rope / Gearless
6–26 Passengers | 0.7–1.75 m/s

Hospital / Stretcher
1500–2500 kg
Smooth & vibration-free operation

Home Elevators
Compact shafts
Hydraulic & MRL options

Goods & Industrial
500–5000 kg
Heavy-duty & overload safety

Glass / Panoramic
Architectural grade
Premium aesthetics

Technical Excellence & Safety

- IS 14665 & IS 17900 compliant systems
- Automatic Rescue Device (ARD)
- Overspeed governor & safety gear
- Infrared full-door curtain protection
- VVVF drive for silent smooth ride

Manufacturing & Quality Control

- ISO-level fabrication & CNC-cut cabins
- Laser-precision structures
- Multi-stage quality inspection
- In-house assembly & load testing
- Designed for 15–20 years of stable performance

Project Delivery Process

A structured, step-by-step execution flow ensuring safety, quality, and on-time delivery.

01

Site Inspection

Shaft study & feasibility analysis

02

Engineering

Drawings, load & safety approval

03

Production

Fabrication & quality control

04

Installation

Precision alignment & execution

05

Commissioning

Testing, tuning & handover

06

AMC & Support

24×7 service & maintenance

Vision & Mission

Vision:

To become India's most trusted, technology-driven elevator brand with global standards and affordable pricing.

Mission:

Deliver safe, reliable, and modern elevators while uplifting the Indian elevator ecosystem through LiftKartz and innovation.

"We Rise by Lifting Others."
